March 4, 1996 PUBLIC SERVICE
COMMISSION

Dear Sir or Madam,

In reference to Case No. 96-061, The Marley Cooling Tower Company has three (3) areas of concern. The first area of concern is that in the event the tower should fall, it could fall onto our property into an area where several employees work. This is also an area where we store work in progress. The second area of concern that we have is whether the Cellular One signal will interfere with the walkie talkies that we use in our day to day operation. Finally, we have concerns about interference with computers, Numerically Controlled machines and radio operated overhead doors.

We would appreciate a response before construction of the radio tower. Please forward your response to Luke Armstrong, Plant Manager, Marley Cooling Tower Company, Louisville, KY 40214 or call (502) 368-2538.

Thank you,

Luke Armstrong
